THE INTERCHANGABLE
ROLL-OFF
BIN AND FLAT DECK SYSTEM

Super Roll-Off

3 SIZES 1 SOLUTION CHASSIS

THE SUPER ROLL-OFF IS NOT JUST A ROLL-OFF TRAILER, IT'S AN ENTIRE SYSTEM.

Now you can offer haul-away bin service, material and equipment delivery. Anytime a trailer sits, it isn't making money. The Super Roll-Off lets one truck and chassis service many bins and flat-decks. Now you can offer haul-away bin service, material and equipment delivery all without the need to modify your truck.

This versatile system starts with the chassis. All three models, 10', 12', and 14' include:

- Powerful hydraulics that can dump as much as you can haul.
- Hydraulic power pack with remote.
- 12V Electric winch to haul in your load.
- Dual Dexter Axles to make sure your payload gets there.
- Flush mount shock proof lights.
- Multiple hitch options including gooseneck, pintle and ball.
- Electric Brakes.

SPECIFICATIONS

- 10': 120" x 78" (LxW)
- 12': 144" x 90" (LxW)
- 14': 168" x 102" (LxW)
- 5200LN Tandem Dexter Axles (Standard)
- 6000LN, 7000LN, 8000LN (Optional Upgrade)
- 6 Bolt Hubs
- 2 Axle Electric Brakes
- 225/75 15 Tires
- Winch
- 12 Volt Powerpack
- Plastic Tongue Box
- 2 5/16" Ball Coupler
- 4600 Kg GVWR

FEATURES

The big 12V Electric winch handles the job at hand. The free-spooling clutch gets you hooked up to deck or bin fast so you can get under way.

Carrying the load, nobody does it better than Dexter Axles. Select your grade of Dexter Axle and Weberlane custom builds it on-site to meet your specifications.

Rubber boots serve a dual purpose - to provide shock absorption protecting lights from impact time after time and to resist moisture.

Lifting the load is easily done by dual hydraulic cylinders for strength, stability and reliability.

FROM 8 TO 12 CU. CAP.

CUBIC YARD CAPACITY

BINS

The bins come in sizes from 8 to 12 cubic yards. The heavy-duty welded construction can stand up to the abuse that is thrown, hurled and tossed at it. The barn doors and low deck height make it extremely useful for loading by hand. When the bin is on the chassis it is a fully functional dump box, roll-off the bin for haul-away waste, or dirt and compost delivery.

FLATDECK

STOP, DROP AND ROLL

DROP THE FLATDECK EXACTLY WHERE YOU NEED IT
AND MOVE ON TO THE NEXT TASK

The flat deck is truly a versatile option. Heavy duty tie downs make sure your load is secure.

The heavy duty pressure treated wood decking is durable and easily serviceable.

Having multiple flat decks allow lumber yards to easily prepare orders while the truck is on delivery. Materials are dropped off in minutes and loading and unloading material is easy.

Floating equipment has never been easier simply roll-off the deck and equipment is easily driven onto the deck with less risk of damage or injury and truck and chassis are off to their next job.

FEATURES

Heavy duty hinged tie-downs ensure your load is safe and secure on all Flatdecks.

Release the locking pin and the loading ramps slide-adjust to any track width.

SPECIFICATIONS

- Pressure Treated Wood Deck
