

600 GALLON SIDEQUEST® TANKS

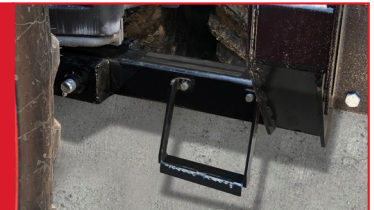

This innovative design features a hub spacer and bearing system for mounting the tank to the outer rear dual allowing weight to be shifted to the rear for less stress on the tractor frame.

- Fits Fendt 900 Gen 6 row crop tractors
- 2- 600 gallon high capacity side mount tanks with 16" fillwell
- Undermount support arms for quick install and removal
- Integrated step for easy access to cab
- Front to rear weight ratio 25% front and 75% rear
- Fits on tractors with or without front duals (rear duals are required)
- Good visibility both front and rear with longitudinal mounting
- Gallon markings on tank
- Deep sump for complete drainage
- 2" flanged outlet in sump with 2" on/off valve
- Tank agitation with 1" flange fitting
- Tanks come with a pull handle for convenient tank valve shutoff
- Transport width - 30" Row Spacing (16'11") when straddle duals are set on 120" centers

Large centered drainage sump

Step for easy cab access

Spacer Hub Spindle Assembly

Convenient tank shutoff valve
