MODEL HDE2049KT3
DECK SIZE 49" Deck
ENGINE 20HP Kohler
KT715

MODEL HDE2249FS3
DECK SIZE 49" Deck
ENGINE 22HP Kawasaki
FS651

MODEL HDE2255FS3
DECK SIZE 55" Deck
ENGINE 22HP Kawasaki
FS651

MODEL HDE2555KP3
DECK SIZE 55" Deck
ENGINE 25HP Kohler
KT740

MODEL HDE2261FS3
DECK SIZE 61" Deck
ENGINE 22HP Kawasaki
FS651

MODEL HDE2561KP3
DECK SIZE 61" Deck
ENGINE 25HP Kohler
KT740

- 49", 55", and 61" deck widths
- 6 Models: Kohler and Kawasaki engines represented
- Manual pin out deck height adjustment
- Electronic Control Module
- ZT-3100 Transaxles
- 23 x 10.5-12 Turf/Bar Drive Tires
- Engine choices up to 25HP

Over 50 Years of Lawn Mowing Innovation

1968

Our first line of garden tractors are released. These tractors were the forerunner and pioneer of our modern lawn mower line.

The tradition of innovation behind the Flex-Wing Model 315's quick cutting height adjustment has inspired the development of the rotary height adjustment (RHA) feature on our ZT lines.

1970

One of our first finishing mower series, the TM5 and TM6, is introduced. The same technology that allowed the TM models to "float" over uneven terrain is used in our modern ZT lines.

1980

The front-mounted 180ZT is launched. With a cutting width up to 60", an 18HP engine, and dual hydrostatic drives, the 180ZT was one of the first hydrostats sold in the riding lawn mower industry.

1989

HDC COMMERCIAL SERIES

FOR
COMMERCIAL USE

HDC2361FS3 / HDC2561KP3

HDC Model Mix

MODEL HDC2361FS3
DECK SIZE 61" Deck
ENGINE 23HP Kawasaki
FS691

MODEL HDC2561KP3
DECK SIZE 61" Deck
ENGINE 25HP, Kohler
KT740

- 61" deck width
- 2 Models: Kohler and Kawasaki engines represented
- Full suspension seat standard
- Rotary controlled deck height adjustment
- ZT-3400 Transaxles
- 23 x 10.5-12 Turf/Bar Drive Tires
- Engine choices up to 25HP
- Full Feature Control Module

1994-96

The ZT 1800 and 2200 are introduced. These front-mounted mowers were designed for durability, ease-of-use, and maintenance.

1997

The Turf Champ (TC) line of ZT mowers is launched. The durable steel and multiple cutting widths introduced with the TC series are features that are still used on our ZTs.

1998-99

The ZT 18, 22, and 25 front-mounted models are introduced. The focus on controls and maintenance featured in these models is integral in our modern ZTs.

The M Series, our first mid-mounted ZT mowers, are introduced. These were also our first mowers with a pivoting front axle and a patented Quick Foot Adjustment™ system.

2000

HDZ PROFESSIONAL SERIES

FULL-FEATURED FOR
PROFESSIONAL USE

HDZ3161FX3 / HDZ3361ECV3 / HDZ3173FX3 / HDZ3373ECV3

2004-05

The Estate Series (ES), Professional Series (PZ), and Commercial Series (CZ) zero turn mowers are introduced.

2008-12

The Home Series (HS), Estate Commercial Series (EC), and Residential Series (RS) are launched.

2017

The Heavy Duty (HD) Hog line of ZT mowers is launched.

2018

Our upgraded HD models with patent-pending features are released.

FEATURES

Deluxe Seat (standard on the HDC/HDZ series and optional on the HDE series)

Electronic control module offers keyless start, system monitoring and Soft Start PTO engagement to protect drive train components, USB power port

Spark arrestor standard on all models, units approved for use on US Forest Service lands

Rotary height-of-cut adjuster on HDC/HDZ models with transport lock, pin out height selection on HDE models

HydroGear transaxles provide proven power and long lasting service

Robot welded, 7GA steel (the same steel used on Bush Hog®'s heavy duty flex-wing cutters!) cutting deck weldments in cutting widths ranging from 49" to 73" depending on the series

Built To Last.

Kawasaki
Engines

KOHLER Engines

Wide selection of
Kawasaki and Kohler
engine models from
20 HP to 33 HP

8 gal under the
seat fuel tank for
improved weight
distribution,
lower center
of gravity, and
improved ride

3" diameter foldable
round tube ROPS

Injection
molded
fenders with
reinforcing
ribs; molded
in beverage
holder and
storage tray

Large 23"x10.5" turf or bar
tires (HDE/HDC) or 24"x12"
radial or bar tires (HDZ)

13 " x 6.5-6"
4-ply tubeless
front caster tires

Rear bumper
with hitch to
protect the
engine when
backing up

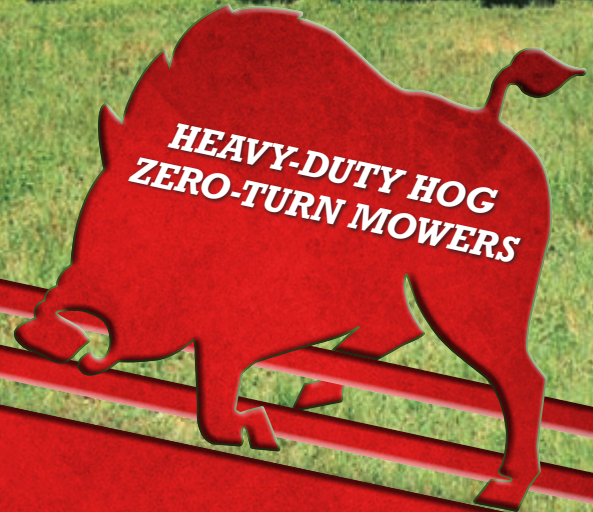

Rubber discharge chute
withstands contact with
obstacles and snaps
back into place

Tracking adjustment provides on the fly
ability to "tune in" steering handles so
unit tracks perfectly, no tools required
