

GENUINE PARTS, ACCESSORIES & SERVICE
STEIGER® SERIES TRACTORS

CASE IH
AGRICULTURE

YOU'VE GOT THE POWER

Your Steiger® Series tractor is tough, reliable and engineered to perform. So when it comes time to purchase attachments, accessories, parts and service, turn to your Case IH dealer for genuine OEM parts and certified service support.

THE CHOICE IS CLEAR

Some aftermarket companies cut corners on materials, quality and strength that can cost you in the long run. The fact is, Case IH engineered and assembled your equipment. We know what each and every part's tolerance, function and service requirement is. And, we've built each part to exceed those specifications.

Don't settle for second best. Rely on Case IH parts for the best in quality, reliability, durability and performance. We offer a complete line of genuine Case IH parts, accessories and attachments to handle any job that comes your way.

DEALER SUPPORT

**CASE IH PROTECTION PLANS**

When the unexpected occurs, you need to know that your equipment is protected. The Case IH Protection Plan is a purchased service contract designed to help keep your equipment working properly beyond the Manufacturer's Base Warranty Period. Select the plan option that best meets your need.

EQUIPMENT PLAN OPTIONS

- Powertrain
- Powertrain Plus Hydraulics
- Premier

New equipment plans are available for protection periods of up to 60 total months or 7,500 total machine hours, whichever occurs first. The protection period you select includes the Manufacturer's Base Warranty Period.

Most equipment that is within the Manufacturer's Base Warranty Period, or up to 120 days beyond the expiration of the Manufacturer's Base Warranty Period, may be eligible for a new equipment plan.

**ADVANTAGES OF THE CASE IH PROTECTION PLAN****PEACE OF MIND**

Provides protection beyond the Manufacturer's Base Warranty Period.

FLEXIBLE OPTIONS

Plans can be customized to meet individual needs.

FINANCING AVAILABLE

Plans may be financed through CNH Capital America LLC retail installment contracts, lease agreements or commercial revolving accounts.

DEPENDABLE SERVICE

Repairs are completed by authorized service technicians using Genuine Case IH Parts.

TRANSFERABLE PROTECTION

New Equipment Plans may be transferred to a new owner at no charge.

**PRODUCTS DESIGNED TO MEET YOUR NEEDS**

We understand the equipment business. That's why we offer these additional products to help keep your operation running smoothly:

PHYSICAL DAMAGE INSURANCE

Provides coverage to repair or replace insured equipment in the event of direct physical loss or damage.

LOSS DAMAGE WAIVER

Helps protect rented equipment against most causes of direct physical loss or damage.

CREDIT LIFE INSURANCE

Provides life insurance coverage to help pay off the balance due on equipment financed with CNH Capital in the event of the insured's death.

DEALER SUPPORT

CASE IH FACTORY-TRAINED TECHNICIANS KEEP YOU WORKING

Our Case IH dealer technicians are factory-trained in the latest service and diagnostic techniques specifically for your Case IH tractor. Because of this skill, they can provide an important added dimension to maintenance — the ability to spot signs of trouble early and fix them before they become costly problems.

PLANNED MAINTENANCE AGREEMENTS

A Planned Maintenance (PM) Agreement is an arrangement between you and your dealer for future services at a predetermined price. PM Agreements can be tailored to meet your specific needs.

Not only does a PM Agreement help you budget maintenance costs, you no longer have to think about the stress of on-time, proper machine maintenance. Instead, hand it over to your dealership's technicians, who have the proper

Case IH training, tools and experience to keep equipment performing at its best. Focus on what you do best, managing your core business.

Our planned maintenance and inspection services offer you these advantages:

- Budgeted maintenance costs
- Identification of problems and repairs before failure
- Increased productivity
- Less costly downtime
- Documented maintenance
- Increased resale value
- Lowered owning and operating costs
- Service by Case IH-trained technicians
- Improved fuel economy
- Use of genuine Case IH lubricants, filters and parts

CERTIFIED MAINTENANCE INSPECTION PROGRAMS

When you schedule your equipment for annual maintenance inspection services, your dealership keeps account of each inspection and service, distinguishing your commitment to keeping your Case IH tractor in top running condition. Not only does this keep you productive in the field, but it can also increase the resale value of your Case IH tractor.

GET THE CASE IH SERVICE SOLUTION

See your dealer for more information on the Case IH Certified Maintenance Inspections, and PM Agreements. Trust your Case IH dealer to keep your Case IH tractor operating in top condition.

MAINTENANCE

**AIR FILTERS**

Better filters mean longer life. Case IH filters offer extended change intervals to save you time and money. Case IH filters offer increased dirt-holding capacity and the ability to remove even smaller particles compared to the filter it replaces.

**BELTS**

Don't take chances with your engine belts. A broken belt can leave you stranded. Replace those old, frayed or cracked belts today. It's also a good idea to always carry spare belts.

**OIL FILTERS**

Case IH Steiger® cartridge filters help keep your oil and powertrain running cleaner. This new design removes an even higher level of the finest contaminant particles that can cause the most potential for engine wear. Less restriction during cold weather conditions compared to typical standard media allows engine oil to reach critical components much quicker than with standard engine oil filters.

**TIRE SEALANT**

Case IH Tire Sealants offer a simple, direct, cost-effective way to help save money, avoid downtime and increase profits. Whether installing new equipment or servicing pre-season or post-season, Case IH Tire Sealants will seal hundreds of punctures up to 3/16" as they occur, and work to maintain constant recommended air pressure for the life of the tire.

See your local Case IH dealer for more information on maintenance products.

Service Maintenance Contracts for all models are available from your Case IH dealer.

MAINTENANCE

“LIFEBLOOD” fluids and maintenance products from Case IH are vital to the life and daily performance of your Case IH equipment.

05

06

01 NO. 1 ENGINE OIL

The new Case IH No. 1 15w40 and synthetic SSL 10w40 engine oils carry the CJ-4 rating and can be used in all diesel vehicles on the farm, including pickups and heavy-duty trucks requiring CJ-4 oil, and all Case IH engines.

The new No. 1 oils have greater ability to stand up to higher heat and to maintain lubricity in the absence of the sulfur that entered the oil when the higher sulfur fuels were used, compared with the previous No. 1 oil with its CI-4 rating. The new No. 1 CJ-4 oils also are a good choice for owners who want to take advantage of the 600-hour oil change intervals now possible with the Case IH Efficient Power engines.

It's also a “backwards compatible” oil, which means it's suitable for use in nearly all older diesel-powered equipment that is now consuming the ultra-low sulfur fuel at 15 ppm. This has been a requirement for off-highway vehicle use in the U.S. and Canada since late 2010.

02 ACTIFULL OT COOLANT

The new Actifull OT coolant is formulated to provide full protection for the Case IH Efficient Power engines, which will continue to meet Tier 4B emissions requirements with SCR-only. Higher combustion temperatures and cylinder pressures are among the emission technology advances in the Tier 4B engines. As a result, coolant in these new engines must resist deposit buildup and other issues that can occur in such extreme conditions.

03 HY-TRAN®

Fifty years ago, International Harvester introduced Hy-Tran as a “do-it-all” fluid for IH tractors that used a common sump for the transmission and hydraulic systems. Over the years, Hy-Tran formulations have evolved to keep pace with ever-more productive IH and Case IH equipment.

Today's Hy-Tran Ultraction offers a higher level of “shear tolerance” - the ability to deliver responsive performance and maintain its properties under extremely high pressures and loads - and is designed to maximize the efficiency and life of the CVT transmissions now available in Case IH Steiger® tractors. This new formulation is also a “multiviscosity” fluid that will maintain consistent power-transmitting qualities across a wide range of operating temperatures - a first for Hy-Tran.

Hy-Tran Ultraction continues to have its time-honored qualities, including the industry's highest level of water tolerance and superior protection against corrosion and gear surface pitting. And, this same new formulation that can handle the most powerful Steiger® CVT transmissions is approved for use in all equipment for which Hy-Tran is recommended. There's no need to have multiple fluids for fleets using Hy-Tran Ultraction; it can be used in the transmission and hydraulic system of every machine.

04 MULTI-PURPOSE GREASE (251H)

Multi Purpose 251H is a general-purpose NLGI 2, lithium-soap, extreme-pressure grease. It's designed for use in antifriction and plain bearings (including non-disc brake wheel bearings), universal joints, spline shafts, water pumps and general chassis lubrication.

05 SYSTEMGARD LUBRICANT AND FLUID ANALYSIS

Systemgard Fluid analysis is a snapshot of what is happening inside your equipment. It tells you the condition of the lubricant and identifies component wear and contamination in engine, transmissions and hydraulic systems. Systemgard can help identify small concerns before they become bigger, downtime causing problems.

06 FLUSH FACE QUICK COUPLINGS

Eliminate hydraulic coupler fluid leakage by updating your equipment with new flush face couplings that resist the effects of surface nicks and scratches.

- Simple one-hand hookup
- Heavy-duty, induction-hardened surface for long life
- 3,000 PSI rating
- Heavy-duty sleeve lock

Service Maintenance Contracts for all models are available from your Case IH dealer.

STEIGER® SERIES TRACTORS

MAINTENANCE

IRON GARD™ PAINT

Protect your investment and add value by preventing problems before they develop with Iron Gard™ paint. The durable finish stands up to extreme weather conditions and exposure to the elements. Iron Gard™ paint meets your demanding requirements and offers a bucket load of advantages.

FUEL CONDITIONERS

Case IH Diesel Fuel Conditioner and Anti-gel are specially blended additives that are designed to extend the longevity of your engine's fuel system and prevent fuel problems related to cold temperatures, bacterial growth, fuel oxidation and system corrosion.

DIESEL EXHAUST FLUID (DEF)

The DEF available through your Case IH dealer is a stable and colorless solution. It meets ISO standards for purity and composition and is an American Petroleum Institute (API)-certified diesel exhaust fluid. These are the highest quality and safety standards in place to ensure optimum SCR system performance. Your Case IH dealer also offers a complete line of DEF transfer pumps and meters, including on-farm bulk storage equipment options.

DEF Transfer Pump

2.5-Gallon Box

275-Gallon Tote

Service Maintenance Contracts for all models are available from your Case IH dealer.

ACCESSORIES

TINTED REAR WINDOW

Keep the inside of your cab cooler in summer, while improving your vision in bright sunrise and sunsets.

FLEXIBLE 5TH STEP

An extra step improves access and is specially designed for tractors with wide tires.

ENGINE BLOCK HEATER

Make those cold winter starts easier and reduce engine wear, with this heavy-duty Engine Block Heater.

CARBON CAB AIR FILTER

Remove dust and other airborne contaminants with this carbon-based filter.

See your local Case IH dealer for more information on accessories.

Service Maintenance Contracts for all models are available from your Case IH dealer.

ACCESSORIES

JENSEN HEAVY-DUTY RADIOS

Heavy-duty means “Built to Last” in the toughest environments. Tested for extreme temperatures, humidity and vibration.

- 2-wire hook-up prevents battery drain
- Low battery alarm & shut-off
- Three in-dash models available

MODELS :

- Jensen ZAEJHD910HD Radio
 - Heavy-duty mini weatherproof AM/FM
 - Weather band/alert & aux-in
 - Also available in Bluetooth (ZAEJHD910BTKHD)

Jensen ZAEJHD3620HD Drive Unit

- Adds CD with electronic skip protection and front USB input

Other Radios and Accessories Include:

Headphones, 2-way speaker sets, antennas, satellite radios and tuners, iPod cables and wireless remotes.

OBSERVATION SYSTEMS

Voyager observation products offer everything you could want in a durable, well-built observation system. Stop straining your neck and back. See where you could never see before and work in comfort, not pain!

- 1 and 2-camera systems, 3rd cameras available
- Cameras are wide-angle, zero-lux & waterproof
- 1-year warranty on medium-duty products
- 2-year warranty on heavy-duty products

SEATS

Case IH offers a full line of heavy duty seats designed and tested to withstand the toughest conditions. From air ride to mechanical suspension, these seats have operator comfort and features built-in for those long hours on the job.

See your local Case IH dealer for more information on accessories.

LIGHTING & ELECTRICAL

**BACKUP ALARMS**

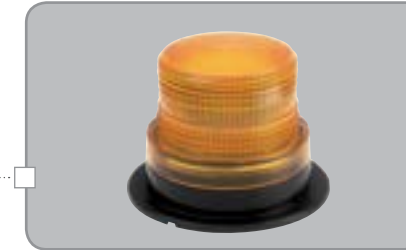

- Light and heavy-duty alarms
- Universal mounting
- Epoxy-encapsulated electronics provides protection against vibration, dust and moisture
- Steam-cleanable and pressure-washable

WARNING LIGHTS

- Lightbars, beacons and minibars
- Halogen and LED lights
- Many options available in regards to light source, size, shape, electrical connection and price point

WORKLAMPS

- Halogen, HID and LED
- Flood, spot and trap configurations available
- Rugged, solid-state lights can withstand off-road shock and vibration

**JUMP STARTERS**

Don't get stuck on the job without juice. Use a Quick Cable Booster. These jump packs will save the day.

MAGNAPOWER™ BATTERIES

Vibration is the biggest killer of off-road batteries. MagnaPower™ batteries are built to take the pounding that is created when your machine bounces across a field or jobsite. MagnaPower™ batteries contain larger and heavier lead connections than typical off-the-shelf batteries and utilize a unique epoxy bonding design to secure the internal grids to prevent shorts caused by excessive vibration and shocks.

All electrical equipment should be installed by an authorized Case IH dealer.

**PROFESSIONAL ECONOMY WHEEL CHARGER**

200/35/2 Amp Manual Battery Charger

- Charges 12V batteries
- 200-amp 12V engine start
- 35-amp fast charging
- 2-amp trickle charge
- 3-year limited warranty

PRECISION FARMING

AFS PRO 700

Designed for agricultural applications, the AFS Pro 700 is a fully customizable color display that allows the operator to view, monitor and control as much, or as little, information as desired.

- 10.4-inch diagonal touchscreen
- Use for planting/seeding, harvesting and machine control
- Up to 6 run screens on a single monitor
- Faster processing speeds than the AFS Pro 600
- Almost 50 percent lighter than the AFS Pro 600

AFS 372 RECEIVER

The AFS 372 GNSS receiver is an all-in-one dual-frequency GPS/GLONASS antenna and receiver system that is “future proofed,” capable for signals not yet available! The AFS 372 GNSS receiver ensures a highly-accurate, reliable signal that is always available so you can keep moving. Signal loss won't shut you down or force you to move forward without mapping and guidance.

EZ-GUIDE® 250 LIGHTBAR

The EZ-Guide® 250 lightbar guidance system has an intuitive user interface that works right out of the box. Easy to install with its own built-in GPS receiver, the EZ-Guide® 250 system can be a logical first step into the world of guidance systems and can be retrofitted to any brand of equipment.

- Rugged construction for everyday field use
- Compact 4.3” color screen
- Intuitive user-interface
- 15 built-in LED lights
- One built-in GPS receiver
- Quick installation and fast learning curve

FM-750™ TOUCHSCREEN DISPLAY

The FM-750™ touchscreen display delivers affordable guidance, steering and precision agriculture functionality. Use the FM-750™ display to maximize your efficiency when planting, spraying, spreading and strip tilling by adding the Field-IQ crop input control system and upgrading to GLONASS satellite correction.

- Rugged construction for everyday field use
- Mid-sized 8.0” color touchscreen
- Intuitive user-interface
- 27 built-in LED lights
- One built-in, dual-frequency GPS receiver
- GLONASS-ready

FM-1000™ TOUCHSCREEN DISPLAY

The FM-1000™ touchscreen display is designed to deliver the best performance and reliability with dual-integrated GPS+GLONASS receivers. Capable of delivering everything you need in guidance, steering and precision farming features, the FM-1000™ gives you a choice of accuracy between 7.9 in (20 cm) and 1 in (2.5 cm) pass-to-pass and year-to-year.

- Rugged construction for everyday field use
- Large 12.1” color touchscreen
- Intuitive user-interface
- On-screen guidance LEDs
- Two built-in GPS receivers
- GLONASS-ready

See your local Case IH dealer for more information on precision farming equipment.

FACTORY SPECIFICATIONS
BUILT TO LAST

Maintain the performance and power of your Case IH Steiger® tractor with Case IH Genuine Parts. Case IH Genuine Parts are the only parts designed and engineered exclusively for your Steiger® tractor. Case IH Genuine Parts and accessories are created, tested and designed to fit, perform and wear specifically for your tractor.

In fact, Case IH Genuine Parts are the same parts used in the original production of all Case IH tractors. Case IH Genuine Parts advantages include: the highest-level materials, exact fit, correct colors and correct finish. Case IH Genuine Parts warranties cover the part and the cost of labor when installed by an authorized Case IH dealer. With Case IH Genuine Parts, you always get parts and service you can depend on.

OIL PUMPS

TURBOS

See your local Case IH dealer for more information on Case IH Genuine Parts for your tractor.

Case IH Genuine Parts warranty includes labor when installed by an authorized Case IH dealer.

CNH REMAN

Today, there are more reasons than ever to choose Case IH remanufactured parts for your equipment. From more product offerings to less downtime during installation, you're sure to appreciate the unique benefits of choosing reman. If you're new to Case IH remanufactured parts, here are some great reasons to make our parts a key element in your ongoing equipment maintenance program.

SIGNIFICANT SAVINGS

Case IH remanufactured parts cost less than OEM parts – offering a great value, while ensuring peak performance.

MORE CHOICES

Every day, we look to add even more parts to our already extensive reman roster. This expanded offering gives you more options for your equipment needs.

HIGHER VALUE

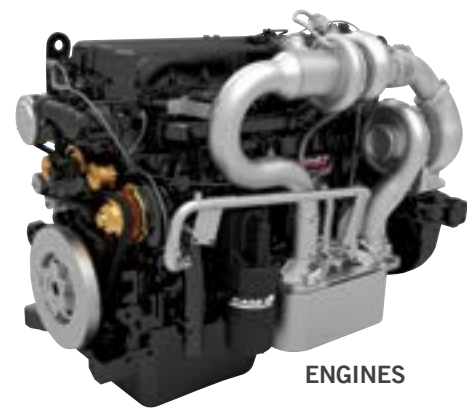

It's a fact. When you install our parts in your equipment, you can expect increased resale value.

OEM PERFORMANCE

Unlike "will-fit" parts, each Case IH remanufactured part is engineered to deliver like-new performance that meets stringent Case IH performance specs.

PROMPT CREDIT FOR YOUR CORE

Your existing core has value. Your local dealer is equipped to provide a prompt, thorough analysis of your core (core values vary with condition).

ENGINES

INJECTION PUMPS

TURBOS

ELECTRONICS

STARTERS AND ALTERNATORS

QUALITY

Case IH remanufactured parts are completely disassembled. All parts are thoroughly inspected and reassembled to the latest OEM specifications.

LESS DOWNTIME WITH INSTALLATION OPTIONS

Because many Case IH remanufactured parts are ready to install, our service technicians can spend less time completing repairs or shop installs. The result? Quicker turnaround and a whole new level of equipment uptime for you.

SUPERIOR WARRANTY PROTECTION

Unlike no-name competitors or rebuilds, our parts are fully warranted – just like those bought new. Case IH remanufactured parts provide the same warranty as new parts, and sometimes better coverage than new parts.

CNH REMAN warranty includes labor when installed by an authorized Case IH dealer.

See your local Case IH dealer for more information on CNH REMAN parts.

CASE IH-BRANDED MERCHANDISE

MODELS AND REPLICAS

Case IH replicas, scale models and collectibles are perfect for kids and collectors-from keepsake heritage collectibles to the always-popular scale models of current machines. Stop by your local dealership to see Case IH's full assortment today.

See your local Case IH dealer for more Case IH-branded models, tools and equipment.

TOOLS

Show off your Case IH pride with Case IH-branded hand tools. Case IH tools have been engineered, sourced and priced to provide the best value for all levels of tool users and carry a lifetime replacement warranty*. These quality tools will provide great service and pride of ownership for years to come.

*Excludes air tools and torque wrenches

POWER EQUIPMENT

Want to add more power to your power equipment? Our line of Case IH power equipment is just what you need to get the job done right. Case IH offers a full line-up of pressure washers, water pumps, generators and air compressors. When it comes to standing up to mother nature, no one has you covered better than Case IH. Purchase your Case IH power equipment today and be ready for whatever mother nature dishes out.

SAFETY NEVER HURTS!™ Always read the Operator's Manual before operating any equipment. Inspect equipment before using it, and be sure it is operating properly. Follow the product safety signs, and use any safety features provided. CNH America LLC reserves the right to make improvements in design and changes in specifications at any time without notice and without incurring any obligation to install them on units previously sold. Specifications, descriptions and illustrative material herein are as accurate as known at time of publication, but are subject to change without notice. Availability of some models and equipment builds varies according to the country in which the equipment is used.
